"Earth & yoyo"

Yoyo was a curious kid who loved to explore the world. One day, Yoyo was looking up at the night sky and noticed something special. It was the planet Earth! Yoyo was amazed by how beautiful and unique it was.

Yoyo wanted to do something to help protect the planet. He started by learning about the environment and how to reduce waste. Yoyo also began to plant trees and pick up litter in his neighbourhood. He even encouraged his friends to join him in his efforts to save the planet. Yoyo knew that if everyone worked together, they could make a big difference.
